Hi everyone;

Fri, Jun 21, 1:35 PM (17 hours ago) ☆ ↶ ⋮

I wanted to thank you all for your support, flexibility and follow-up with the GCP training. Especially Arnold who did an amazing job during those 2 days at Cirque. Team Feedback is really good, and I think we all improved our knowledge tremendously, what will allow us to go further and leverage Google Cloud Platform capabilities at their maximum. We still have a lot to accomplish but you guys helped us to steer the boat towards the right direction ...

I will definitely relay the team's questions to Arnold in the upcoming weeks as we will have further interrogations regarding several GCP modules. Let me know if it is alright with you ...

Let's keep in touch for the 3rd day of training in September or October ...

Happy Summer Solstice  
Joyeuse fête de la musique pour Romain 😊

Again, and on behalf of the whole team thank you.

Regards

S.O

I'm very sastified with this training. Good job M. Arnold :)	fnf9g6

3.00	5.00	5.00	4.00	5.00	5.00	3.00	Interactive	The labs are to easy to perform as we do not have autonomy (ex: all queries are already created, too much step by step we cannot find anything by ourselves). I suggest you can offer a harder version of the labs. It would be nice to make examples with company's data. It would be nice to have a "story-line" between modules.	Thank you	fnf9g6
