To Whom It May Concern

This letter is to confirm that M. Arnold Villeneuve is currently responsible for delivering the Tier 1 and 2 series of security courses that have been designed specifically for the Government of Canada in both official languages. In this capacity, M Villeneuve is providing the services of Lead Instructor and Technical Editor for the following IT Security Course:

**Client Name: Communications Security Establishment – IT Security Learning Centre**

As a lead Government of Canada (GC) security agency, CSEC is responsible for providing IT security training and awareness programs to all GC IT security professionals and other employees. Here on our site, you will find a breadth of offerings to meet your needs - from courses developed to introduce COMSEC and IT security principles in general, to full programs of study designed to prepare you for development, operation and management of information systems. Our goal is to provide you with the tools you require to deliver on your own IT security mandate.

**Contractor: Phirelight Security Solutions**

**Client Focus: Security Training for the Government of Canada**

**Position: Lead Security Instructor**

**Date Started: April 2013**

**Training Courses include:**

Course 101	<a href="#">Introduction to IT Security Management</a>
Course 103	<a href="#">Harmonized Threat and Risk Assessment (HTRA)</a>
