DND-JAG Major Simpson

In military parlance, a "force multiplier" is a capability provided to a force that enhances the probability of success in mission accomplishment. In other words, it is something that multiplies the power of a force to achieve greater effects than the force would otherwise be capable of. Mr. Villeneuve was a force multiplier for our project. I highly recommend him to you for any SharePoint-related work you may require.

Yours truly,

DND-JAG Business Analyst Verna Lindstrom

By his reproduction of our 2007 SharePoint implementation and the build of a new 2010 system, he was able to devise a customized migration strategy and thus deliver numerous detailed reports regarding the proposed upgrade from SharePoint 2007 to SharePoint 2010. These reports included detailed recommendations regarding our farm build, integrated systems, customized solutions, and site builds which will be our guide through the future migration.

We can highly recommend Arnold Villeneuve as a solid and reliable consultant, and an expert in his field.

Yours Sincerely,

Verna Lindstrom

IDRC – Director IM/TD Dominique Rivard

Their application assessment was based on SharePoint 2010 and the report covered:

- a) reviewed the current design and construction of the Public Web Site;
- b) documented the impacts on our ability to support future development on the site;
- c) recommended modifications that would improve maintenance.

Their work has been very helpful and the result of their analysis will help us to move forward with this project.

We can confidently recommend *Infomentat Inc./Networkologist* as a solid and reliable consulting firm, and experts in their field.

Yours Sincerely,

Dominique Rivard  
Director, Information Management and Technology Division

## Ontario Teacher Pension Plan – Project Director John Altinian

Specifically, Mr. Villeneuve assisted Teachers in the following areas:

- Defined the importance of having a governance plan in place to ensure a successful implementation that met the needs of the organization
- Outlined what SharePoint was good at and what it was not good at
- Reviewed Teachers requirements and aligned them with SharePoint technologies and solutions (GAP Analysis)
- Identified a SharePoint architectural design process for Teachers to adopt for its design and implementation process
- Assisted with the developed of a phased implementation plan
- Detailed the issues surrounding the integration of third party applications like IBM Connections and Lotus Notes
- Facilitated a workshop on End User Adoption strategies
- Participated in detailed technical discussions on Microsoft SQL database related integration challenges and concerns
- Provided ongoing support through email and phone conversations long after the contract was over

Teachers was very satisfied with the Microsoft SharePoint consulting services provided by Mr. Villeneuve of Networkologist and would consider using his services again. The depth and breadth of SharePoint knowledge and experience Mr. Villeneuve has was significantly greater than other consultants we had engaged in the past.
